

Noah Dixon

Conception Bay South, Newfoundland, Canada • +1-709-763-7117 • nfdixon@mun.ca

Education

Memorial University of Newfoundland
Bachelor of Computer Engineering

St. Johns, NL
Class of 2030

Queen Elizabeth Regional High School

CBS, NL
Class of 2024

Experience

Crew Trainer

McDonald's

CBS, NL

June 2021 - August 2026

- Trained and onboarded 7 new employees over a 2-year tenure, ensuring adherence to McDonald's operational and food safety standards
- Demonstrated cross-functional proficiency across kitchen, drive-thru, and front counter operations, serving as a versatile resource for team coverage and training

University Projects

Automatic Plant Care System for People with Disabilities

2024

- Description: Designed and built an automated plant care system intended to assist individuals with disabilities in maintaining healthy plants. The system monitored real time environmental conditions and respond autonomously to keep plants within optimal growing conditions
- Role: Co-developer in a 2 person team, contributing to hardware integration and software development of the full system, including sensor wiring, automation logic, and the mechanical watering mechanism
- Technologies Used: Arduino microcontroller, soil moisture sensor, temperature sensor, and servo motor for the automated water valve control. System logic and sensor data processing were programmed in Python.
- Outcome: A functional, hands free plant care system that autonomously watered plants and sent users alerts of unsafe temperature conditions. Gained practical experience in embedded systems, sensor integration, and accessibility focused design

Activities & Certifications

Rugby — Most Dedicated Award (2024)

2020-2024

- Description: Competed on the high school rugby team, developing teamwork, discipline and performance under pressure.

IEEE Xtreme 18.0 — Participant Certificate (2024)

Additional

Technical Skills: Python, C++, Git, Github, Linux, Embedded Systems, 3D Cad, Microsoft Office

Volunteer Experience: Physician Office – Job Shadowing

Interests/Hobbies: Programming, Reading, Magic The Gathering, Ping Pong, Comic books, Hiking
